

5-Channel Volume Control with Relay

T-6239F

Features:

- * Standard cabinet design (1U), black alumina brushed panel, exquisite craftsmanship, showing high-grade temperament.
- * 5 channels inputs and outputs.
- * 5 independent channels, 200 watts per channel, total 1000W control capacity.
- * 5 steps attenuation.
- * 5 level volume control, convenient and fast remote control of zone volume.
- * Frequency response from 100 Hz to 18 KHz while distortion less than 1.5dB.
- * With override function, built-in 5-channel DV24V override control port, can force open the controller volume in emergency.

Specifications:

Model	T-6239F
Frequency Response	100 Hz~18 KHz
Output Level	0V~100V
Input	100V
Relay	DC 24V 50Hz
Power Consumption	5W
Weight	4.63Kg
Dimensions	484 x 209 x 44mm
