

The T-651 remote control panel is used in conjunction with the UC series matrix digital power amplifier, which can remotely control the volume and remotely select the input source.

## Features

1. Use standard universal plastic bottom box.
2. Volume control and audio source selection.
3. Use with UC series matrix digital power amplifier.
4. Use a code switch to select the corresponding control channel.
5. Built-in power indicator.

## Technical parameters

<b>Model</b>	T-651
Communication Distance	Max 1Km
Interface	RJ45
Communication Way	RS485
Control	Volume control
Powered by	DC 24V
Power Consumption	5W
Weight	0.25Kg
Size	86 x 86 x 48mm
