

Digital AM/FM Tuner

T-6222

Embedded software: radio control software V1.83

Description:

1. Cabinet type AM/FM digital radio requiring manual control.
2. Provide audio sources for the public address system.

Feature:

- * 1U tabletop and rack mount design with aluminum alloy panel.
- * Dynamic VFD florescent screen display, microcomputer control, touch button operation.
- * FM / AM two-band receive option, FM receiving frequency memory storage up to 99
- * Radio frequency automatic search and memory function and a power off memory function.
- * Quartz phase-locked loop frequency synthesizer tuning loop technology, receiving frequency accurate and stable.
- * Two sets of receiving antenna input: AM receiving antenna input and FM receiving antenna 75Ω input.
- * 1 channel audio signals left and right channels (L / R) output.
- * Support infrared remote control and control by panel.

Specifications:

Model	T-6222
Power Supply	~220V 50Hz
Power Consumption	30W
Dimension	484 x 290 x 44mm
Weight	3.24Kg
